

**Modified process of creating a new meeting:  
Question Modules to replace growing number of  
different questionnaires**

In June 2019, some changes were made in the process of creating a meeting on i-EVAL:

You will only find the questionnaires "Youth Exchange", "Training Seminar / Expert Meeting" and "Youth Exchange (Short questionnaire)" in the drop down-menu.

After choosing the suitable questionnaire you can add question modules tackling various topics - e.g. cultural education or multilateral exchange.

Of course, you can also add own questions.

With this new structure, i-EVAL is ready for further developments, as further modules can easily be included.

If so far you have worked with the questionnaire on Youth Cultural Exchange, Multilateral Youth Exchange or Multilateral Cultural Youth Exchange, you can still do that, of course.

Just choose the questionnaire "Youth Exchange" and add the relevant item modules. The questionnaire will then look exactly the same as it used to.
